

The beauty of pure North American hardwood, harvested and thermally-modified to perfection in the United States.

PROJECT PROFILE

AMERICANA™ SIDING PRESENTING AN INVENTIVE, ULTRA-MODERN STYLE

An ultra-modern Siding project where Americana™ Thermally Modified Poplar is combined with Shou-sugi-ban, a flame treatment that chars the surface of the boards. Americana serves up stability in harsh environments, allowing for unconventional use of natural, real wood where it normally would never venture.

- Straight, stable sight lines
- Ease of installation and maintenance
- Dependable performance

That's the Americana™ Siding advantage!
